Model MMV700S
MegaMouth Vertical Low Speed Juicer

The Omega MegaMouth Vertical Low Speed Juicer. A powerful, low speed, masticating juicer that's quieter than high speed juicers. Key features include:

- Large 3" (7.6cm) feed chute that can fit most whole apples, oranges, kiwi, cucumbers, tomatoes, pears, etc. Less time spent cutting and prepping!
- Juice spout tap minimizes accidental dripping and spills.
- BPA free parts: Bowl, Feed Chute, Cleaning Screen. Auger and Strainer are ULTEM, which is 'virtually BPA free' but not 0%.
- Includes (1) Fine Juicing Screen (1) Blank Screen (1) Cleaning Tool (2) Brushes

Manufactured in Korea

	Specifications subject to change without notice.
	Approvals: CE, CCC
