TOTAL NUTRITION CENTER<sup>®</sup>

THE BRAND CHOSEN BY LEADING CHEFS WORLDWIDE

## HELPING PEOPLE LIVE HEALTHIER FOR GENERATIONS

Decades before nutrition was on everyone's mind, the founder of Vitamix, W.G. "Papa" Barnard, introduced the world's finest whole-foods machine: the original Vitamix. His compelling message and amazing demonstration sparked immediate interest that has continued to grow into what is now a worldwide movement.

Since the company's beginning in 1921, the popularity of Vitamix has spread to more than 80 countries, and Vitamix is now the preferred brand of blending equipment for cooking enthusiasts, health and nutrition experts, the finest chefs, restaurants and culinary schools around the globe.

## UNLOCK MORE NUTRIENTS

The health benefits of eating less processed, less refined foods are well documented. However, preparing whole foods wasn't always the easiest or best-tasting choice. Owning a Vitamix machine changes all that forever.

A Vitamix Total Nutrition Center® makes it quick and easy to eat whole foods in one great-tasting recipe after another. Plus, its impressive power and laser-cut blade design tears down the cell walls of fruits and vegetables, making vital nutrients more readily available for your body to absorb. With a Vitamix machine, even the nutrient-packed peels, pulp and seeds of many types of produce can be pulverized and blended into recipes for some of the most health-protecting, disease-preventing dishes and drinks you've ever had.

## UNLOCK YOUR CREATIVITY

Surprising food combinations that produce incredible flavors are suddenly possible with a Vitamix Total Nutrition Center on your countertop. In fact, the Vitamix machine is so powerful that it allows you to try a seemingly endless variety of new recipes, many utilizing some nutritionally super-charged whole foods you probably never dreamed of eating before. A vast, fresh array of tastes is at your disposal, and every meal is another exciting opportunity to try something new, delicious and nutritious.

# SO MUCH MORE THAN A BLENDER
